Where does the Mac App Store download the files to under Lion? I need the DMG file in order to repair something in my system, but how can I access that file?

See Xcode versions at: developer.apple.com/download/all/?q=xcode

To install Xcode, download a file below, double-click to unzip, and simply **move to** the Applications folder. (To have more than one version of Xcode: simply name them differently on the Mac.)

- [26.2](#)
- [26.1 \(Silicon\)](#), ... [\(Universal\)](#),

- [16.4](#)
- [16.3](#) (Requires macOS 15.2+)
- [16.2](#)
- [16.1](#)
- [16](#) (Requires macOS 14.5+)

Only **latest/final** revisions are listed.

From MacOS 15, it is not possible to use Xcode prior to Xcode 16. [15.4](#) [15.3](#) (macOS 14+) [15.2](#) (includes visionOS) [15.1](#) [15.0.1](#) (macOS 13.5+)

[14.3.1](#) (macOS 13.0+) [14.2](#) [14.1](#) [14.0.1](#) (macOS 12.5+)

[13.4.1](#) [13.3.1](#) (macOS 12.0+) [13.2.1](#) [13.1](#) [13.0](#)

[12.5.1](#) [12.4](#) [12.3](#) (silicon macOS 11+ / Intel macOS 10.5.4+) [12.2](#) [12.1](#) [12.0.1](#) (macOS 10.15.4+)

[11.7](#) [11.6](#) [11.5](#) [11.4.1](#) (macOS 10.15.2+) [11.3.1](#) [11.2.1](#) [11.1](#) [11](#) (macOS 10.14.4+)

(Unsupported for iTunes Connect) [10.3](#) [10.2.1](#) (Requires macOS 10.14.3+) [10.1](#) (Last version supporting macOS 10.13.6 High Sierra) [10](#)
(Subsequent versions were unsupported for iTunes Connect from March 2019)

[9.4.1](#) [9.3.1](#) [9.2](#) (Last version supporting macOS 10.12.6 Sierra) [9.1](#) [9.0.1](#) *September 19, 2017*

Removed from the Apple site 9/2024: [8.3.3](#) [8.2.1](#) (Last version supporting OS X 10.11.5 El Capitan) [7.3.1](#) [7.2.1](#) (Last version supporting OS X 10.10 Yosemite) [6.4](#) [6.2](#) (Last version supporting OS X 10.9.5 Mavericks) [5.1.1](#) (Last version supporting OS X 10.8 Mountain Lion) [5.0.2](#) [4.6.3](#) [4.5.2](#) [4.4.1](#) [4.3.2](#) [4.2](#) [4.1](#) [4.0.2](#) [3.2.6](#) [3.1.4](#) [3.0](#) [2.5](#) [2.4.1](#) [2.3](#) [2.2.1](#) [1.5](#) [1.0](#)*

For anyone who is essentially just looking for Git support, you don't need to download the full 10 GB + Xcode download, you just need to download the Command Line Tools for Xcode by searching for "Command Line Tools for Xcode" here: developer.apple.com/downloads

Another tool to help download Xcode versions is Xcodes: github.com/RobotsAndPencils/XcodesApp for UI and github.com/RobotsAndPencils/Xcodes for a CLI Uses Aria2 for downloading which can speed up your download 10x.
